

Job Description

Job Title: Waste Water Treatment Plant Operator – Grade II
Location: Santa Clarita, California – Vista Canyon Water Recycling Facility
Experience/Qualifications: California Grade II Wastewater Certification required, 1-2 years of industry experience.

Job Objective

Reporting directly to the Lead Waste Water Treatment Plant Operator, the Grade II Operator has responsibility for assisting in the successful operation and maintenance of the 0.4 MGD Vista Canyon Water Recycling Facility (WRF) and assisting as necessary in the operation and maintenance of other PERC Water projects as needed. The Vista Canyon WRF includes Aero-Mod Biological Technology with UV disinfection.

Principal Duties and Responsibilities

- Operates, inspects, cleans, repairs, replaces and maintains piping, valves, motors, grinders, pumps, aerators, screens, compressors, filters, clarifiers, UV disinfection system, chemical feed systems and related equipment; assists in major treatment plant repairs as necessary.
- Performs treatment plant rounds inspecting, monitoring, and documenting plant operations by reading plant equipment gauges, dials, computer screens, graphs, and other instrumentation; making adjustments to process controls as directed by the Operations Manager; identifying operational problems and ensuring they are corrected; ensuring that plants are operating within safety standards established by federal, state, and local laws, ordinances and regulations.
- Performs general, grounds, and preventive maintenance and repair in and around plant facilities including lubricating equipment, washing process equipment; performs landscape duties including mowing, edging, and weed abatement.
- Notifies Lead WWTP Operator when consumable inventories are low.
- Operates a variety of vehicles, tools, and equipment necessary to maintain the wastewater treatment plant system and equipment.
- Performs basic skilled water pollution control laboratory testing and analysis; takes samples; adheres to quality assurance programs for laboratory analysis and instrumentation. Prepares and updates records and logs in compliance with state and federal mandates for reporting.
- Ability to work at other locations within Los Angeles County
- Perform supervised equipment maintenance
- Perform house-cleaning activities such as dusting, mopping etc.
- Performs a wide variety of general and semiskilled maintenance activities (e.g. carpentry, painting, electrical, etc.) for the purpose of completing projects within established time frames.
- Inspect and troubleshoot equipment and systems.
- Communicate any problems/issues to the Lead WWTP Operator
- Maintain tools and equipment for the purpose of ensuring availability in safe operating condition.

- Responds to emergency situations during and after hours for the purpose of resolving immediate safety concerns.
- Transports a variety of tools, equipment and supplies for the purpose of ensuring the availability of materials required at job site.
- Promote and adhere to PERC's written corporate Safety program
- All other tasks as assigned by the Lead WWTP Operator
- Maintain acceptable attendance per PERC standards

Knowledge, Skills and Abilities Required

1. General computer skills including good working knowledge of Microsoft Outlook, Word and Excel. Ability to learn CMMS program used on site.
2. Excellent team-working and communications skills to enable effective interaction with other PERC Water personnel, including peers. Able to establish and maintain effective working relationships with others.
3. Physical:
 - Body Positions: Standing, sitting for extended periods of time, walking.
 - Body Movements: Use of hands, eyes, ears, arms and voice. Must be able to lift, push and pull up to 75 pounds on a regular basis.
 - Must be able to climb up and down stairs and ladders and climb into process tanks and enclosures
 - Must be able to climb on, or into facility equipment and systems (Confined Space Training required).
 - Must be able to work weekends, nights or holidays as needed.
 - On call availability as scheduled
 - Must be able to travel from jobsite to jobsite within in the area
4. Mental:
 - Language ability includes reading, writing, spelling, and the ability to communicate clearly on business topics in English.

Education, Professional Credentials and Experience

1. High School Diploma or equivalent; degree a plus but not required
2. Current California Grade II Wastewater Certification required
3. 1-2 years of previous experience in a similar position
4. Valid CA driver's license

Company Overview

PERC Water Corporation is an innovative water infrastructure company that develops, designs, builds, operates and manages water infrastructure throughout the United States. We have designed more than 60 water infrastructure projects, 27 of which we have built and placed into operation over the past 20 years. Our unique project approach results in certainty of cost, schedule, performance and water quality for our clients. PERC Water's trademarked and award-winning designs allow for an efficient and environmentally-sensitive solution to water recycling. Our trademarked designs reduce a client's environmental footprint by approximately 70%, as the design requires only a fraction of the property typically set aside for traditional campus-style treatment plants. We seek to hire productive workers and innovative thinkers for all positions within the company and we encourage all employees to take ownership of the processes they are part of and responsible for.
