

Job Description

Job Title: Grade III /Lead Wastewater Treatment Plant Operator
Location: Camp Pendleton, California – Wastewater Treatment Facilities
Experience/Qualifications: California Grade III Wastewater Treatment Certification plus a minimum 3-5 years of industry experience.

Job Objective/Facility Description

Reporting directly to the Chief Plant Operator, the Grade III Operator has responsibility for the successful operation and maintenance of the NRTTP and or the SRTTP and assisting as necessary in the operation and maintenance of other PERC Water projects if needed.

Principal Duties and Responsibilities

- Performs treatment plant rounds inspecting, monitoring, and documenting plant operations by reading plant equipment gauges, dials, computer screens, graphs, and other instrumentation; making adjustments to process controls as directed by the Operations Manager/CPO; identifying operational problems and ensuring they are corrected; ensuring that plants are operating within safety standards established by federal, state, and local laws, ordinances and regulations.
- Operates, inspects, cleans, repairs, replaces and maintains piping, valves, motors, grinders, pumps, aerators, screens, compressors, filters, clarifiers, UV disinfection system, chemical feed systems and related equipment; assists in major treatment plant repairs as necessary.
- Performs general, grounds, and preventive maintenance and repair in and around plant facilities including lubricating equipment, washing process equipment; performs landscape duties including mowing, edging, and weed abatement.
- Notifies Chief Plant Operator when consumables inventories are low.
- Operates a variety of tools, and equipment necessary to maintain the wastewater treatment plant system and equipment.
- Performs basic skilled water pollution control laboratory testing and analysis; takes samples; adheres to quality assurance programs for laboratory analysis and instrumentation. Prepares and updates records and logs in compliance with state and federal mandates for reporting.
- Ability to work at other locations within Southern California
- Perform supervised equipment maintenance
- Perform house-cleaning activities such as dusting, mopping etc.
- Performs a wide variety of general and semiskilled maintenance activities (e.g. carpentry, painting, electrical, etc.) for the purpose of completing projects within established time frames.
- Inspect and troubleshoot equipment and systems.
- Communicate any problems/issues to the Chief Plant Operator
- Maintain tools and equipment for the purpose of ensuring availability in safe operating condition.

- Responds to emergency situations during and after hours for the purpose of resolving immediate safety concerns.
- Promote and adhere to all site-specific Camp Pendleton regulations, rules, and procedures
- Promote and adhere to PERC's written corporate Safety program
- All other tasks as assigned by the Chief Plant Operator
- Maintain acceptable attendance per PERC standards
