

Job Description

Job Title: Wastewater Treatment Plant Operator – Grade II or higher
Locations: Lake Park, EMJ Park and Vulcan Hewitt Site
North Hollywood and Los Angeles, California

Job Overview /Objective

Reporting directly to the Operations Manager, the Grade II Operator has responsibility for the successful operation and maintenance of the Ground Water Pump and Treat Facility or the assigned Wastewater Treatment Facility. This positions will work at multiple sites.

Principal Duties and Responsibilities

- Performs treatment plant rounds inspecting, monitoring, and documenting plant operations by reading plant equipment gauges, dials, computer screens, graphs, and other instrumentation; making adjustments to process controls as directed by the Operations Manager; identifying operational problems and ensuring they are corrected; ensuring that plants are operating within safety standards established by federal, state, and local laws, ordinances and regulations.
- Operates, inspects, cleans, repairs, replaces and maintains piping, valves, motors, grinders, pumps, aerators, screens, compressors, filters, clarifiers, UV disinfection system, chemical feed systems and related equipment; assists in major treatment plant repairs as necessary.
- Performs general, grounds, and preventive maintenance and repair in and around plant facilities including lubricating equipment, washing process equipment; performs landscape duties including mowing, edging, and weed abatement.
- Possesses adequate writing skills to complete monthly report of operations
- Possess adequate verbal communication skills to lead the client meetings and provide a report of the monthly tasks
- Maintains consumable inventories as needed to ensure uninterrupted operation
- Operates a variety of tools, and equipment necessary to maintain the wastewater treatment plant system and equipment.
- Performs basic skilled water laboratory testing and analysis; takes samples; adheres to quality assurance programs for laboratory analysis and instrumentation. Prepares and updates records and logs in compliance with state and federal mandates for reporting.
- Ability to work at other locations within Southern California if needed
- Perform equipment maintenance
- Perform house-cleaning activities such as dusting, mopping etc.
- Performs a wide variety of general and semiskilled maintenance activities (e.g. carpentry, painting, electrical, etc.) for the purpose of completing projects within established time frames.
- Inspect and troubleshoot equipment and systems.
- Maintain tools and equipment for the purpose of ensuring availability in safe operating condition.
- Responds to emergency situations during and after hours for the purpose of resolving immediate safety concerns.

- Promote and adhere to all site-specific regulations, rules and procedures
- Promote and adhere to PERC's written corporate Safety program
- All other tasks as assigned by the Operations Manager
- Maintain acceptable attendance per PERC standards

Knowledge, Skills and Abilities Required
